

Thinking of adopting a Wadars rabbit?

Although they may be small, owning a rabbit may require more work than originally expected but if you ensure to meet all their welfare requirements, they can make fantastic pets. It is advised you do some research on rabbits; this could include their diets, grooming, cleaning, and social needs. Or give us a call and we can discuss the needs before you commit to adopting a new pet. All Wadars rabbits are given a health check before being rehomed and come to you with four weeks' free pet insurance, will be microchipped, neutered, and vaccinated against Myxomatosis and Viral Haemorrhagic Disease. New owners are expected to maintain yearly booster vaccinations.

If you are interested in any of our rabbits, please fill out our online application form or phone us on **01903 247111** for more information. We would then arrange a home check with you and then invite you in to view the rabbits.

Before the home check you will need to have a fully weather-proofed hutch and run in place that meets their welfare needs (see diagram on right for approximate sizes). The purpose of the home check is to discuss rabbit ownership with you and the health and welfare of the animal, as well as the housing you are providing for them. If you are looking to house your rabbits inside their needs are slightly different so, please get in touch so we can discuss your situation.

We do run a foster to adopt scheme if you are looking to bond your single rabbit with one of our single bunnies, please phone us for further information on this process.

Your accommodation

If you live in rented accommodation, Wadars will need written landlord consent agreeing to the adoption. This will need to be in place before a home check is arranged. Please provide your landlords contact details on your application so we can gain this consent.

Financial Implications

There is an adoption fee for all Wadars animals - for rabbits this is £35 or £60 for a pair, this helps to cover the cost of their care. The adoption fee is payable at the time of collection. Please make sure that you have a suitable plastic or metal carrier for transporting your pet. We can provide carriers for a £10 donation.

A large part of owning any animal is ensuring that all their needs are met, so do ensure that you have considered the full financial cost of owning a rabbit, such as their accommodation, food, bedding and vet checks, before you begin the process to adopt an animal from Wadars.

The minimum age for adopting an animal from Wadars is 18 years.
